DETAILED ACTION

Claim Objections

Claim 43 is objected to because of the following informalities: the word "a" at line 4 before the word instantaneous apparently should have been - - an - -. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 25-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 25, line 5, the phrase "using of" after the word wheel is unclear. Also, at line 10-11, the clause transition "and thereby" is unclear.

In claim 26, the phrase "is to" at line 3, is unclear.

Claims 27-36 are also rejected for incorporating the deficiencies of their base claim.

Claim 33 recites the limitation "the telegram" in line 18. There is insufficient antecedent basis for this limitation in the claim.

In claim 37, lines 6-7, 8-9, the phrase "in respect of" is unclear.

Claims 38-48 are rejected for incorporating the deficiencies of their base claim.

In claim 44, the phrase "in respect of" is unclear. Also it is unclear as to whether those steps are from the energy detection device.

In claim 45, it is unclear as to whether these steps are the data or the responses.

Claim 45 recites the limitation "the telegram" in line 18. There is insufficient antecedent basis for this limitation in the claim.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
